Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public.

Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System.

Hood's Sarsaparilla is sold by all drug stores, \$1.50 for 60 doses. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

ACCIDENT ON THE O. R. & N.

The Cars Plunge Through a Burnt Bridge.

MANY SKELETONS UNEARTHED.

The Murderer of a Deputy Sheriff Killed by a Mob.

Railroad Accident.

WALLA WALLA, July 26.—About 1:35 this morning the southbound O. R. & N. passenger train ran through a burnt bridge a short distance west of Riparia. The engine and baggage car fell in first, the passenger coaches stopping on the brink of the chasm. Engineer Geo. C. Graham was severely scalded and otherwise injured. An extra engine came to the assistance and drew the remainder of the train back to Riparia. The wreck was then cleared away and the track repaired, the train arriving here at 4 p. m. No other injuries are reported.

Immigrants Found Buried.

MINNEAPOLIS, July 26.—A party of explorers have just unearthed a number of human skeletons buried in Chalk cliffs, ten miles east of Yankton, Dak., on the Nebraska side. Fifty skulls and two hundred headless skeletons were found, which the local physicians pronounced to be the remains of white people, children and adults. The indications are that they have been buried for forty or fifty years.

Two theories are advanced to account for their presence. One is that they were immigrants bound for Oregon or California in 1848, who were murdered by the Indians, and another is that they were Indians of some tribe at war with the Sioux and that they were murdered.

An investigation will be made at once.

Killed By a Mob.

DENVER, July 26.—A Santa Fe, N. M., special to the News says: Deputy Sheriff Warren Moore was shot and killed this morning at Walla, N. M., by Joseph Chacha.

The latter was a smallpox attendant and was ordered to leave town, whereupon he fired three shots into a crowd of citizens, wounding one man. He then fled to the hills, pursued by Moore, whereupon Chacha turned and killed the officer, and was himself overtaken by the angry crowd and riddled with bullets.

The President's Ousting.

BOSTON, July 26.—A letter to Governor Ames from Walker Blaine explains, as far as possible, the program of the contemplated visit of the president to the East, as furnished Blaine by Secretary Halford.

The president will probably leave Washington for Bar Harbor, August 6 or 7, probably remain one day and night in Boston, and then go to Bar Harbor, Me.

A Large Donation.

PHILADELPHIA, July 26.—Miss Kate Drexel, the wealthy lady of this city who recently entered a Pittsburg convent, has donated \$250,000 to found a Catholic college here, exclusively for colored students. She also promises to pay the salaries of the teachers and the pastor of the church in connection with the school.

The Astoria Railroad.

INDEPENDENCE, Or., July 26.—The surveying party of the Astoria railroad passed here to-day, headed for Sheridan. They go between this place and Monmouth.

G. B. Tardiff of Pendleton, has secured the contract for erecting the new courthouse at Colfax, W. T. He says that the building will cost \$100,000.

Five hundred acres of T. P. Page's wheat fields near Athena, Washington territory were destroyed by fire, having caught from a passing engine. The wheat was reported to average forty bushels an acre, which will make Mr. Page's loss upwards of 20,000 bushels. It is not thought that the grain was insured.

The price of logs on the Sound has been advanced from \$5.50 to \$7 per thousand, and it is feared the price will be higher than the last figures before very long. It is claimed that the rise is due to the fact that but little snow fell on the mountains last winter, hence there was not enough water to properly float the logs down.
